이 과제는 대학혁신지원사업비로 연구되었음
Kyonggi University (KGU) was founded as Choyang Kindergarten Teacher School in Jongno-gu, Seoul in November 1947 with the aim of providing education that would promote true independence of the Korean people, based on the awareness that national development and co-prosperity of mankind are predicated on nurturing talents through education.

Then, in 1979, the Suwon campus was established, and the school was promoted to the university status in October 1984.

The founding philosophy of KGU centers on seeking truths, hard work and dedication based on sincerity, and loving oneself, one’s nation and her people, and all mankind.

In a time when the world is shaped and reshaped by scientific advancements, KGU plans to uphold and propagate its core values of Truth, Sincerity, and Love.

Accordingly, KGU will nurture students into creative individuals with individuality so that they can become leaders in society.

Educational Philosophy

To nurture talents with autonomy who can contribute to the nation and human society based on intellect, virtues, and sensibility.

Truth: Seeking truths is the fundamental objective and mission of all universities. While the mission of universities varies across time and regions, the fact that they should strive for truths has never changed.

Sincerity: There is a need to dedicate oneself to one’s given tasks and responsibilities with sincerity. All members of KGU – including professors, staff, and students – must faithfully fulfill their respective duties and responsibilities.

Love: Humans should practice love in every aspect of their lives. They should begin with self-love and then strive to love others and their community and nation before eventually pursuing efforts to build friendly international ties.

Self-love can come to fruition only when one endeavors to improve one’s character and pursue personal development based on self-respect. Love for others and one’s community and nation refers to love of one’s people and patriotism, and this is practiced by devoting oneself to the development of the society one belongs to as well as one’s people and nation. Furthermore, there is a need to contribute to the co-prosperity of all mankind.

It is when we all strive to practice the founding philosophy of KGU that our university – together with all its members – can move forward.

The founding philosophy of KGU can thus be summarized as “founding a university that seeks truths, fulfills its duties and responsibilities with sincerity, and loves and serves society and its country.”

Educational Objectives

- Nurture intellectuals with good character who pursue personal development
- Foster creative individuals with professional knowledge and competencies
- Cultivate global citizens who contribute to the peace and advancement of humanity
- Promote volunteerism which can promote prosperity and happiness within the community

Educational Goals

- Help students build tenacity, diligence, and critical thinking skills and pursue self-realization
- Allow students to acquire academic knowledge and creative application skills in preparation for the future
- Instill pride in regard to the Korean people and culture and help students gain open-mindedness and leadership skills to be proactive participants in the era of globalization
- Equip students with a sense of community based on empathy and thoughtfulness and the will to practice love for humanity

KGU supports its international students with various scholarship programs to improve their focus on their study here in South Korea.

KGU has campuses in Suwon and Seoul.

The Suwon campus is home to the KGU headquarters, 6 colleges, 14 divisions, and 14 departments offering a total of 42 majors, while the Seoul campus is home to 1 college, 1 division and 4 departments offering a total of 5 majors.

Each year, KGU accepts around 3,000 new students. There are about 20,000 current students and 500 full-time professors, which are arguably some of the highest figures reported among private universities in Korea.

KGU is not only providing outstanding education but also engaging in full-fledged research activities to contribute to academic advancements and regional development.

Colleges at the Suwon Campus

College of Humanities
- Department of Korean Language and Literature
- Department of History
- Department of Library & Information Science

- Urban and Transportation Engineering Major
- Division of Mechanical System Engineering
- Mechanical Engineering Major
- Division of Mechanical System Engineering
- Smart Robotics Major
- Department of Architecture
- Architectural Engineering (contract-based department)
KGU Graduate School educates students to gain the skills to collect, analyze, and compile data while conducting research in their respective areas of specialization. It is comprised of a wide range of departments so as to broaden the students’ expertise.

Ph.D. students, in particular, are encouraged to explore their areas of specialization in depth based on the skills they have gained through their master’s degree programs. They carry out original research to contribute to academic advancements by coming up with new theories or modifying traditional theories and become equipped with instructional and leadership skills to share their expertise with others.

Graduate Schools and Their Departments [Seoul Campus]
International Affairs
OfficeInternational Affairs Team

The International Affairs Team, which aims to uphold the core values of Kyonggi University (KGU), which are "truth," "sincerity," and "love," has been entering into sister school agreements with outstanding colleges outside Korea to provide opportunities for KGU students to study abroad and learn about other cultures.

The team is responsible for recruiting and managing international students and handling the overall affairs concerning international students such as their sojourn status, academic status, and more.

At present, KGU has 285 sister universities in 41 countries and is nurturing its students into global citizens through various exchanges with 80 sister universities in 25 countries in the form of a student exchange program (SEP), study abroad program (SAP), internship program (IP), dual degree program (DDP), short language program (SLP), and cultural and sports exchange programs.

Key Responsibilities
1. Establish and implement a master plan for international exchanges
2. Enter into sisterhood/partnership agreements with overseas colleges and institutions
3. Provide assistance to prospective international students in the admissions process
4. Collect and analyze international education information
5. Attract international students

International Affairs Team’s website:
http://www.kyonggi.ac.kr/KyonggiTpSrv.kgu?cxt=IOIE

 Programs Operated by the International Affairs Team
1. International Student Representative Group
   The International Student Representative Group is comprised of national representatives selected from among the international students attending KGU. The group helps other international students get adjusted to the life in Korea and the university life.
   [Kye Activities]
   - Each representative creates emergency contacts for the students from their respective country and serves as a communication bridge between KGU and the students
   - Participate in the programs organized by KGU and the International Affairs Team and encourage other international students to participate
   - Participate in and promote international student counseling
   - Service as a guide for international students in the process of course registration, learning, visa renewal, etc.
   - Create information guides in their respective languages (translation) for students
   - Volunteer during orientations for new and transferring students
   [Scholarship]
   KRW 1.5 million for the President of the International Student Representative Group and KRW 1 million for each member

2. Student Employee of the International Affairs Team
   Current students at KGU can apply to become a student employee of the International Affairs Team. Those who are hired will be provided with scholarships and be tasked with conducting administrative work and assisting international students for a prescribed period of time.

3. TaLK Program
   International students and exchange students are invited to tutor local students at KGU through conversational language lessons or to engage in other activities such as providing cultural experiences or watching movies together. Through these activities, Korean students can hone their proficiency in foreign languages, and the participating students can gain a better understanding of each other’s culture. Foreign students are each provided with a scholarship of KRW 600,000 in exchange for 40 hours of language lessons. To all the foreign students who wish to teach their mother tongue and make Korean friends, be sure to sign up!

4. Global K buddy Program
   Global K buddy is a program run by Office of International Affairs. The KGU students who participate in this program can speak at least one foreign language. They applied for this program because they are very willing to help foreign students. They are always at the international office and ready to help visitors! Therefore, if you have any problems, you can visit the international office and ask for help. Especially, every exchange student will meet their own buddy for sure. Global K buddies will help every exchange student with the course registration, dormitory application and etc.

International Affairs
OfficeKorean Language Center

Language Classes at the International Education Center

The KGU Korean Language Institute offers classes that can help foreign students prepare for the TOPIK exam. In response to the growing demand for Korean language classes due to the boom of K-culture across the world, classes have been established for those wishing to learn Korean simply out of interest or to fulfill a job requirement as well. The classes are aimed at helping students build their communication and problem-solving skills, with a curriculum that cultivates listening, speaking, reading, and writing skills. The KGU Korean Language Institute uses teaching and learning materials developed by its very own instructors, who have either a master’s degree or a Ph.D. The instructors provide guidance to students so that they can make stellar academic achievements and also take interest in their lives on and off campus so that they can excel in every aspect of their lives.

Characteristics of the International Education Center

1. Conversational language classes taught by full-time foreign teaching staff
2. Offers courses to prepare for TOEIC, TOEIC Speaking, and TOEFL (IBT) under professional instructors
3. Offers Korean language classes for the globalization of the Korean language (Korean volunteers)
4. Equipped with state-of-the-art facilities and equipment for improved efficiency
5. Reflects student feedback in the language programs

KGU Study at KGU

Eligibility Criteria

1. Nationality
   Both parents of the applicant must be foreign nationals

2. Academic Background
   - New student: A foreigner who has completed
     education equivalent to the elementary school,
     middle school, and high school education in Korea
     according to the relevant law in the applicant’s
     home country
   - Transferring student: A student who has completed
     or is set to complete two years’ or four terms’
     worth of coursework at a four-year university in
     Korea or abroad and obtained at least half of the
     required credits to graduate from the original school
     OR has graduated or is set to graduate from a two-
     three-, or four-year college in Korea or abroad and
     wishes to transfer to KGU as a third-year student

3. Language Proficiency
   Must satisfy one of the following requirements:
   - Major (or minor) in Korean language or
     graduated from a Korean college
   - Passed the LV. 4 TOPIK exam or a higher level (LV.
     3 for those wishing to major in a discipline related
     to the arts or physical education)
   - Studied Korean at a Korean language school in
     Korea for at least a year

4. Tuition
   - Studied at KGU: Full tuition
   - Transferring student: 40% of tuition
   - New student: 40% of tuition

KGU Programs and Facilities

At KGU, a number of offices and administrative departments are running more than 2,000 extracurricular programs to promote bilateral communication between students and faculty members and to help students cultivate various competencies, including global competence. Of particular note, the necessary infrastructure has been built to offer one-stop career and job search support services and diverse employment and entrepreneurship programs. In order to better assist students in pursuing personal development and preparing themselves for the job market, KGU operates a library housing more than 740,000 books and 1,800 desks and the KGU Job Plus Center equipped with the AI Interview Room and Smart Meeting Room among various other facilities.
KGU students can receive career consulting at the Job Center of the Talent Development Office. There are diverse programs, including extracurricular programs and the Job Studio, operated by the administrative offices and college departments to better assist students who are contemplating career choices or preparing for the job market.

**Library at Kyonggi University**

KGU is dedicated to continually improve its library to become a knowledge hub based on its educational philosophy.

The KGU Library houses around 740,000 books, 1,800 desks, 1,200 academic journals published at home and abroad, and 12,000 electronic journals. The library is dedicated to continually building its academic database and facilitating utilization of the information it provides.

In the 1990s, the library introduced the Total System for a digital transformation, and in 2000, the Digital Library System was introduced to provide the theses and dissertations written by KGU students online. In 2006, a state-of-the-art academic information system was established to provide the best possible environment to utilize information for all its users.

On the library website, visitors can search for books and other materials housed by the library as well as academic databases and digital information materials, including academic paper and electronic journals. Efforts are continually made to build a web-based academic database.

The Electronic Information Room houses around 55,000 non-book materials, such as DVDs, videos, and VCDs, and is serving as a cradle for the future leaders of advanced information society.

---

**Talent Development Office**

- One-stop employment support services
- Career guidance and job search support
- Job search support infrastructure on campus
- Overseas job search support
- Local youth employment governance

**Employment Management and Support Team**

- Statistical surveys on employment and a database of graduates
- Operation and management of job-related courses
- Employment performance management centering on industry-university cooperation
- Job Search Academy
- Job candidate recommendations and job fairs
- Imagination Closet (free rentals of clothing for job interviews)

**Career Development Team**

- Establishment of a master plan for the career development program
- Career management and career development programs for students
- Development and operation of programs that help boost students’ competitiveness on the job market
- Miraejapkki Scholarship Program

**Programs Recommended**

- Capacity building program for job seekers
- Miraejapkki Job Café Program
- Career roadmap fair
- Company analysis and creative idea contests, etc.
Student Housing

KGU Dream Towers
The KGU Dream Towers, the construction of which was completed in August 2011, are student dormitories known for pleasant living quarters and amenities and state-of-the-art systems. Students can thus enjoy a high quality of life, which allows them to focus on their studies, while learning about proper etiquettes in communal living.

Each unit is equipped with a bathroom, advanced heating and cooling systems, a card key access system, and high-speed Internet. Amenities include a lounge, coin laundry room, and cafeteria (1F). Other facilities include a coffee shop, convenience store, stationery store, and laundromat that make the residents’ lives more convenient and comfortable.
